

11th April, 2020

In response to your request for clarification regarding your industries professional massage practices I advise the following;

In Western Australia, massages that are provided through professional services like physiotherapists, remedial massage therapists and myotherapists are not currently prohibited by the Closure and Restriction (Limit the Spread) Directions made by the State Emergency Coordinator on 7 April 2020.

Your practitioners and staff will of course have to follow all of the other COVID19 directions and requirements which I am sure as an organisation you are aware of and have implemented.

Regards

WA Police Force Liaison to State Health Incident Coordination Centre |
